

**Name: Manav Uttekar**

**Roll no:71**

**Problem Statement: Department maintains a student information. The file contains roll number, name, division and address. Allow user to add, delete information of student. Display information of particular employee.**

**If record of student does not exist an appropriate message is displayed.**

**If it is, then the system**

**displays the student details. Use sequential file to main the data.**

```
import os
